FIG 2010 Young Ambassadors

Very soon after the 2005 Cairo FIG Working Week, the FIG2010 Sydney Congress' Organisational Management Committee (OMC) decided that a World Surveying Congress would be a terrific experience for young professionals throughout the world.

The Committee developed the concept of the "Young Ambassador" to promote the Congress and to attract attendance by all ages of our professions. The Young Ambassadors are sponsored by both the Committee and other professional organisations in the Asia-Pacific Region.

Currently, our Young Ambassadors and their sponsoring associations are:
