

FFP-LA and SDG

Paula Dijkstra, FIG Working Group on FFPLA and Kadaster International

BIOGRAPHICAL NOTES

As Director a.i. of Kadaster International **Paula Dijkstra** is responsible for the coordination of Kadaster's international activities and international cooperation projects. Kadaster International provides worldwide advisory services in the domain of land administration, e-governance, geo-information services and SDI.

She is working for the international department since 2011. She obtained a Master degree in Social Geography and a grade in cadastral data acquisition and 3D modelling.

In addition to the above she has been appointed as the co-conference director for the Working Week of the International Federation of Surveyors (FIG) taking place in the Netherlands in 2020 (postponed to 2021 due to COVID-19). She also chairs the FIG taskforce on the Sustainable Development Goals as well as Working Group 7.2 on Fit For Purpose Land Administration.
