

**Report for the 23<sup>rd</sup> General Assembly  
FIG Working Week in Prague, 22-26 May 2000**

**FIG WORKING WEEK 2003, EILAT, ISRAEL**

Our Association has chosen the members of the Organizing Committee, who include the Chairman of the Association and three other members of the Association managing team< two colleagues from the Survey of Israel and one from the Technion, Israel Institute of Technology.

A visit has been made to the site of the 2003 Working Week and the facilities, including accommodation at a range of prices are satisfactory. We are confident that Eilat will be enjoyed by all participants.

We have chosen the Kenes company to be our professional organiser of the event. The company has very considerable experience and reputation in successfully organising such events in Israel and abroad.

We are going to have shortly a web site for the 2003 Working Week and we intend to keep all the FIG member associations informed of the various aspects of the event.

A professional symposium will take place during the Working Week and we shall be in touch with all the Commission Chairs and Vice/Chairs on this subject.

We shall make every effort to make the 2003 Working Week a success, both professionally and socially.

Our Chairman and several leading members of the Association will attend the Working Week in Prague and will be glad to answer questions and provide information.

Ron Adler  
Coordinator of FIG Affairs  
Association of Licensed Surveyors in Israel
