

**Report for the 24<sup>th</sup> General Assembly  
FIG Working Week in Seoul, 6–11 May 2001**

**FIG CONGRESS 2006 AND INTERGEO 2006  
MUNICH, BAVARIA; GERMANY, AUGUST/SEPTEMBER 2006**

Alea iacta est: FIG Congress 2006 will be held in Munich, the capital of Bavaria, together with the INTERGEO Congress 2006. The dates for INTERGEO 2006 have recently been fixed: This internationally as top event for all disciplines of Surveying and Geoinformatics recognised annual fair in Germany will be held from August 30<sup>th</sup> to September 1<sup>st</sup>, 2006, in Munich.

The precise starting and ending date for the FIG congress 2006 will soon be fixed. The congress organising committee suggests to invite the participants of both FIG Congress and INTERGEO 2006 to one common opening ceremony which would provide excellent opportunity to establish lots of contacts both on European and on international level. The well-known and unique fair of the INTERGEO guarantees a successful FIG event.

A web site is currently being established, most probably at <http://www.fig2006.de>.

We are looking forward to invite you to FIG Congress 2006 in the world-famous capital of Bavaria, the city of Munich.
