Subject: Romania's bid for the FIG working week and GA in 2015 or 2016

Dear Mr President,

We were informed by our members from Romania (the Romanian Association of Private Surveyors and the Romanian Union for Geodesy), that they intend to make a bid for the FIG working week and the FIG General Assembly in 2015 or 2016.

As you might know, we've experienced a very successful conference in Bucharest in 2010. With this fruitful experience in mind, we can confirm that the Romanian Surveyors from the private and public sector are very committed to the promotion of our profession. They possess all the required skills to organize important conferences.

Moreover, Bucharest is definitely a city with a very high potential to attract delegates from all over the world. Without preempting on the organizing committee's decision, I remember that the Parliament Palace was a very well suited venue for our international conference.

Therefore, CLGE of course supports the bid from Romania, as we would do for all our members, but with a special accent on the high level performance of the past.

Jean-Yves Piriot
President
