

International Federation of Surveyors
Fédération Internationale des Géomètres
Internationale Vereinigung der Vermessungsingenieure

Membership Application for a Member Association

General

Full membership of the International Federation of Surveyors (FIG) is open to a national association representing one or more of the disciplines of surveying (see the following FIG definition of a surveyor) and whose members

- possess relevant academic qualifications (which should normally be equivalent to at least UNESCO International Standard Classification of Education (ISCED) level 5 degrees) plus approved professional experience; and
- who provide professional services in accordance with ethical standards.

Associations which include technician grades of membership are also eligible for membership of the Federation.

A group of surveyors or surveying organisation, comprised of individuals who practise the profession of surveying, which does not fulfil the criteria for membership as a member association can be admitted to join the Federation as an affiliate member. An affiliate may be admitted to membership where the discipline or disciplines it represents are not already represented within the Federation by a member association from the same country. The admission of an affiliate should normally be a step towards the development of an association which can eventually become a member association.

Each category of membership provides opportunities for establishing contact with the international surveying community and thereby assisting with the development of indigenous academic and professional training programmes, including CPD facilities, and the development of technical and professional standards.

Only member associations are entitled to vote at FIG's annual administrative meetings. An affiliate and other members may nominate a representative to attend as an observer. All FIG members receive copies of FIG publications, monthly e-Newsletters and the Annual Review; and are entitled to nominate one delegate to each of FIG's ten technical commissions. Participation to the Commission work is one of the most important benefits of membership of FIG. However these benefits only come about if those nominated as delegates participate in the work of the commissions and publicise the results within their own countries; and FIG has therefore published guidelines for its members and for their national commission delegates.

As from 1 January 2018 the annual fee payable by a member association is 4.48 € per member of the association for a calendar year. Minimum fee is 20 members or 50 € per member association and maximum fee 5,500 members (24,640 €). Member associations from the poorest countries (countries listed by the World Bank as low-income economies or lower-middle-income economies) shall pay 2.24 € per member up to a maximum of 5,500 members in 2016.

An association wishing to apply for full membership should complete the relevant application form and return it to the Council. Applications are assessed first by the Council, which decides whether to recommend them for approval by the General Assembly.

In the case of an application received from an association in a country which already has one or more member associations, these associations shall be informed of the application and their comments sought.

FIG DEFINITION OF SURVEYOR

A surveyor is a professional person with the academic qualifications and technical expertise to practise the science of measurement; to assemble and assess land and geographic related information; to use that information for the purpose of planning and implementing the efficient administration of the land, the sea and structures thereon; and to instigate the advancement and development of such practices.

Practice of the surveyor's profession may involve one or more of the following activities which may occur either on, above or below the surface of the land or the sea and may be carried out in association with other professionals.

1. The determination of the size and shape of the earth and the measurement of all data needed to define the size, position, shape and contour of any part of the earth.
2. The positioning of objects in space and the positioning and monitoring of physical features, structures and engineering works on, above or below the surface of the earth.
3. The determination of the position of the boundaries of public or private land, including national and international boundaries, and the registration of those lands with the appropriate authorities.
4. The design, establishment and administration of land and geographic information systems and the collection, storage, analysis and management of data within those systems.
5. The study of the natural and social environment, the measurement of land and marine resources and the use of the data in the planning of development in urban, rural and regional areas.
6. The planning, development and redevelopment of property, whether urban or rural and whether land or buildings.
7. The assessment of value and the management of property, whether urban or rural and whether land or buildings.
8. The planning, measurement and management of construction works, including the estimation of costs.
9. The production of plans, maps, files, charts and reports.

In the application of the foregoing activities surveyors take into account the relevant legal, economic, environmental and social aspects affecting each project.

FIG MEMBERS AND THEIR COMMISSION DELEGATES

The purpose of these guidelines is to help ensure that the full benefits of FIG membership are passed down to all the individual members of associations or other organisations that are members of the Federation.

To ensure that these individual members are kept fully informed of and input where necessary to the work of FIG and its commissions, FIG recommends that

- FIG members should support, or encourage others to support, the attendance of national commission delegates at annual FIG working weeks (including annual commission delegate meetings and technical symposia) and other symposia organised by the commissions
- FIG members and their national commission delegates should consider establishing networks within their countries to communicate information and obtain feedback
- national commission delegates should be actively involved in commission activities, including responding to questionnaires or correspondence and identifying topics and authors of papers for commission symposia and FIG congresses
- FIG members should seek and encourage funding support to enable national commission delegates to attend FIG activities, including commission meetings

National commission delegates should write at least one annual report for publication in a local newsletter or technical journal or for dissemination by some other means to individual members of their association or organisation.

1. Name of association:
in own language انجمن سرویران افغان
.....
.....

in English (if different from above)
..... Afghan Surveyors Association (ASA)
.....
.....

2. Address: Karte Naw, District 8th, 1st Street, House # 250. . .
.....
.....

3. Telephone no: +93(0) 785332500.
.....

4. Fax no: None.
.....

e-mail address: sayeed_kakar@yahoo.com.
.....

Home page address: none.
..

Logo (please attach a high resolution logo of the association as .jpg file or add the link):
.. This will be developed a later date.
.....

6. Name of President: Dr. Shawali Sargand
.....
.....

7. Administration:

Is the above address the address of the permanent office of the association? If so, please state the name of the chief executive and the number of any other permanent staff members.
... At this time ASA dos not have full-time permanent staff. However, it has established an ASA executive management committee comprised of:

- Mr. Shawali Sargand (President)
- Mr. Mohammad Anwar Saraj (Deputy President)
- Mr. Mohammad Sayeed Kakar (Member)
- Ms. Lailuma Yaqubi (Member)
- Mr. Zaher Zaher Sultani (Member)
- Mr. Jawad Peikar (Member)
- Mr. Yar Mohammad Yaqubi (Member)
- Mr. Arifullah Arif (Member)
- Mr. Abdullah Naser (Member)

8. Date of formation of association: April 2nd, 2018
.....

|

9. Objectives and ethics:

Please summarise on a separate sheet the objectives of the association and state whether it enforces disciplinary procedures; and enclose a copy of its constitution and rules (including, where applicable, its code of conduct).

Name of the Association: Afghan Surveyors Association (ASA)

Key objectives of the ASA;

1. Contribute to the standardization of the geodesy and cadastre professions and modernization of respective academic institutions;
2. Provide short and midterm training programs for the new graduates of the geodesy and Cadastre and pave the ground for them in order to work in professional arena;
3. ASA as registered and professional entity certify the geodesy and cadastre engineers based on criteria and professional test;
4. ASA as registered and professional entity certify the geodesy and cadastre companies based on criteria;
5. Provide continuing professional development for geodesy and cadastre professionals in both government and private sectors;
6. Support respective government institutions to meet their strategic objective related to geodesy and cadastre related areas; particularly, the Afghanistan independent Land Authority in implementation of its projects and programs;
7. Establishing professional relations with the similar entities in other countries and exchanges knowledge and experience in respect to geodesy and cadastre; and
8. Ensure to advocate for the legal rights of the geodesy and cadastre professionals and companies in the country.

Note: The ASA by-law is attached to this application form, please kindly refer to the application attachment for the more details in this respect.

10. Routes of entry to membership:

Please provide the following information on a separate sheet

1. The title held by qualified members of the association;
The title could be survey engineer, cadastre engineer and land lawyer
2. The level of academic qualification required to obtain the title;
At least a bachelor of Geodesy and Cadastre and Bachelor of lawyer, or registered technical company;
3. Whether academic training programmes to this level are available in your country (if not, please state how and where members obtain their academic training);
Bachelor of Geodesy and Cadastre are available in Kabul polytechnic University and Bachelor of Law available in Kabul University
4. What approved professional experience is required on completion of academic training and prior to acquisition of the title;
At least one year experience in land administration and land management or worked at least in two projects with national organizations.
5. What the requirements are for continuing professional development and whether this is mandatory or voluntary;
It's mandatory
6. If the association also admits technician or sub-professional members and, if so, the qualifications required for entry to this grade of membership.
Registered company with updated license.

11. Members

No. of holders the title:

> qualified 15

..

> qualifying 100.

..

No. of technician or sub-professional members:

> qualified .20

...

> qualifying .50

..

12. Specialisations

% of qualified members whose principal specialisation is:

Hydrography10 .%
Positioning/measurement20 .%
Engineering surveys30 .%
Cadastre/land management20.%
Spatial planning/development10.%
Valuation/real estate management10%
Construction cost management10%

13. Statutory recognition

Is the association constituted by statute?ASA is registered with the Ministry of Justice of Afghanistan government

Please list on a separate sheet those activities undertaken by your members which are regulated by statute and state whether any or all of these can be performed only by members of your association. If not, please state who else can acquire the title to perform any of the activities.

The ASA key activities has been attached to this application under its by-law, attached.

14. Employment

% of qualified members:

Self-employed and employed in private practice30%
Teaching20%
Employed by government20%
Employed in the commercial or other sectors30%

15. Subscriptions

Please state the annual subscription payable by each grade of membership

Company annual charges 200\$

Personal annual chares 50\$.

.....
