	<p>accommodate the changing nature of the industry while honouring and building upon its traditions.</p> <p>Fundamentally supporting our peak body FIG, is core to our objective of advancing the profession. Through hosting the Working Week we intend to contribute to supporting FIG in a number of ways.</p> <p>We understand that financial return is an important outcome of running a conference, and through delivering a highly successful conference with strong delegate attendance we will provide a substantial net return to FIG.</p> <p>We believe that there is a large opportunity for FIG to increase membership across the Asia Pacific region. Consequently, as outlined in section 3.10 of this document we propose a number of strategic initiatives to ensure strong delegate attendance from this region to maximise the opportunity to increase FIG's profile and create the opportunity for increased membership. Delivering a highly successful conference which is designed to enhance transdisciplinary collaboration across the profession is our core goal.</p>	<p>We would like to share our experience in the construction of a uniform cadastre for the whole country, taking into account the difficult historical background of various parts of the country Works on the creation of the Integrated Information System about Real Properties are now continued These are just some of the achievements in the creation of a modern infrastructure for spatial information in Poland We would like to host the FIG Working Week in a country, where there probably is the biggest number of surveyors per capita</p>
<p>18. Objectives and outcomes</p> <p>Thought through why conference should be held at destination Difference to other destinations Short term outcome Long term outcome</p>	<p>OBJECTIVES</p> <ul style="list-style-type: none"> • To host a memorable, modern forum, focused on professional development, education, sustainability and building the capacity of our profession. • To work in collaboration with transdisciplinary organisations across Australia, to ensure strong attendance nationally, beyond SSSI membership. • Utilising strong connections across the Asia Pacific region to work in partnerships with key organisations to create the opportunity for strong attendance from this region, creating new membership opportunities for FIG and delivering professional development across the region. • Target the next generation of surveyors and spatial professionals, through a Youth Summit and Young Ambassadors Program. <p>OUTCOMES</p> <ul style="list-style-type: none"> • To contribute to growing the capacity of our profession to meet with future demands. 	<p>Presentation of the achievements of Polish geodetic and cartographic heritage and achievements of other countries worldwide.</p> <p>Comparison of the solutions used in different countries in the field of modern technology, science and administration</p> <p>We are convinced that the FIG Working Week will be a fruitful global meeting of geodetic and cartographic community, which will have the following effects</p> <ul style="list-style-type: none"> - Expanding recognition and potential of Polish geodesy and cartography - Expanding international cooperation and finding optimal solutions in the field of modern technology, science and administration.

	<ul style="list-style-type: none"> • Deliver high attendance from the Asia Pacific region and South East Asia to enhance education and professional development and create the opportunity for FIG to increase membership. • Support FIG through delivering a financial return, successful conference and new membership opportunities. • Enhance transdisciplinary collaboration across the surveying and spatial community within the Asia Pacific region and internationally. • To attract high numbers of young professionals to attend, through targeted initiatives, to increase their engagement with SSSI, FIG and the profession. <p>Brisbane, as proposed host city, has the largest concentration of major infrastructure projects anywhere in Australia. Brisbane will become a de facto “living lab” of surveying and spatial sciences, offering extensive examples of transdisciplinary collaboration in practice and providing the opportunity for technical tours and workshops</p>	
<p>19. Suggested theme</p> <p>Thought of possible theme that fits to local/regional situation</p>	<p>“Surveying and geospatial: creating resilient solutions for sustainable communities”</p> <p>Our proposed conference theme is intrinsic to our bid and in essence is about interdisciplinary collaboration and building the future capacity of our profession.</p> <p>Our theme is twofold, firstly there is a social responsibility to our profession to contribute to the development of a more sustainable world. Secondly, we believe that this contribution will be achieved through our transdisciplinary approach to thinking outside the boundaries to enhance the capacity of our profession to create a better world.</p>	<p>Towards excellence in measurements</p>
<p>20. Events organized in the past three years</p> <p>How experienced is the host in organizing events</p>	<p>SSSI is organizing a large yearly conference LOCATE, which attracts over 800 delegates. The core success of LCOATE is the collaboration between surveying and spatial sciences, illustrating the benefit to our profession of interdisciplinary collaboration</p>	<p>Between 2015 and 2019 the Association of Polish Surveyors organised 47 local events including conferences, seminars and competitions, The International Polish-Czech-Slovak Geodetic Days, and has an experience in cadastral conferences</p>
<p>21. Major events planned in the proposed city in 2024</p>	<p>Brisbane Marketing is unique in that we can work with FIG and our Major Events partners to leverage any events scheduled pre, during or post conference for delegates, to enhance their Brisbane</p>
